"Your Hardware Merchants"
AND WESTINGHOUSE DEALER

DRAMATIC SOCIAL CLUB
HOLD FIRST MEETING

About fifty young people gathered in the Community Hall Monday night, making an increase of fourteen new members on the enrolment list.

The majority of the members were there promptly at 8:15, although a few had to pay an extra five cents for arriving late. The business part of the meeting was opened by singing "Oh Canada". Two new groups were formed to take their in the social and dramatic activities. Miss Edna Middleton, a press reporter. By the next meeting, October 17th, all members are requested to have their fee of 25 cents each paid.

The play, taken from Shakespeare's "Midsummer Night's Dream", put on by the executives—Sidney Lindstedt, George Hargraves, Helen Holm, Maxine Ditta and Vorese Wellman, created much laughter and applause from the audience. Following this, contests and dancing were enjoyed by all. The meeting ended at 10:30, after a dainty lunch had been served by the social committee nominated for that meeting.

Any one wishing to join the club is cordially invited to attend. The next meeting will be held on October 17th, at eight o'clock, in the Community Hall.

CARD OF THANKS

I wish to express my sincere appreciation for the services given me by Doctors Freeze and McKenzie and the Nurses of Carmangay Hospital, and to all others who were so kind to me during my recent illness.

WILBUR MATLOCK.

ALL GRAIN PRODUCERS
CAN UNITE

on one common ground—the
perpetuation of the Wheat Board as a
permanent institution.

CHAMPION, ALBERTA

LOCALS

Visiting from Ponoka, Don Stephenson was a week end guest at the home of his parents.

Mr. Burleigh, who has been assisting at McCullough Bros. during their sale, returned to Calgary on Sunday.

Max Caldwell left on the bus Sunday, for Calgary, having secured a position with an orchestra.

Leonard Voisey and Gordon Berger left this week for Calgary, where they will attend Technical School.

Entertaining for Mrs. James Dawson of Edmonton, who is her guest, Mrs. Peter Dawson was a tea hostess on Tuesday.

The engagement of Miss Ida Louise James of Lethbridge, to Lawrence Virgil Stout of Champion, has been announced.

After spending the summer in Kimberley, B. C., visiting her sister, Mrs. H. Frame, and her brother Paul, Miss Ethel Dietrich returned home this week.

Mr. Baker and Mr. Lindstedt discussed the Sulston question. Mr. Baker presented the viewpoint of the Democrates; Mr. Lindstedt, the viewpoint of the Totalitarian countries.

Hon. Speaker Dawson, M. L. A., delivered an address on the Case for Alberta, a brief prepared by the Provincial Government.

The next meeting of this organization will be held on Saturday, November 5.

While playing during recess Wednesday afternoon, Walter Taylor, son of Mr. and Mrs. Roy Taylor met with a painful accident breaking his left arm between the elbow and wrist.

Coming next week—Buck Jones, the favorite of young and old, in tour for Tombstone. One of his finest pictures, filled with action and plenty of thrills, Community Hall, Wednesday, Oct. 12th, at 8:30.

K. R. McLean, Optometrist and Optician, 209 and 210 South Main Blg., Calgary will be in Carmangay at the Drug Store, Tuesday morning, Oct. 18th, and in Champion at the Drug Store Tuesday afternoon.

Patrons of the picture show were pleased with the improvement in sound this week. The management assures us that every effort is being made to overcome any defects in order to produce perfect sound.

Mrs. James Dawson of Edmonton, provincial grand mistress of the L. O. B. A., who has been a visiting lodges of that organization in the southern part of the province, is the guest of her brother-in-law, Rev. Peter Dawson, and Mrs. Dawson

The private railway coach, occupied by eight sportsmen from the United States on their annual hunting trip in Alberta, who have been here since the season opened Saturday, was attached to last night's passenger train and moved farther north to a new location.

Local baseball enthusiasts are enjoying the radio broadcasts of the World Series games now in progress. McIntyre & Company have again arranged a player board in their window showing the plays as they are made and, with a loud speaker installed, it gives a splendid portrayal of the game.

ANNUAL SCHOOL

TRACK AND FIELD MEET

The ninth annual Track and Field Meet sponsored by the Champion Consolidated School Board was held on Saturday afternoon, October 1st. The weather was ideal and a good crowd turned out to witness the events. Six rural schools sent entries.

We wish to welcome two schools, Harpon and Turnbow, which entered the meet for the first time.

Grades VI, VII, VIII Champion pt. 72
Grades X, XI " 67
Grades III, IV, V " 49
Grade I, II " 48
High School 43
Turnbow " 23
Long Coulee School 17
Grade IX Champion 10
Hawks School 10
Sanderson School 9
Blission School 1

Walter Anderson is the winner of the individual cup for boys and Mary Moore and Irene Slier tied for the girls' individual cup. As in the past, the Champion Women's Institute again donated two individual cups. If someone would volunteer to donate the third cup required on account of the tie for the girls' cup.

The junior prizes for the greatest number of points in Classes A, B and C were won by Jackie Goodman, Champion, and Kathleen Cloues, Harmony. These prizes are being awarded this year by two of the Champion teachers.

Special award ribbons are given to those obtaining the greatest number of points in each class. The following are the winners of these ribbons.

Class A Boys—Elgar Farries, Champion, 9 points
Class A Girls—Audela Hoffman, Turnbow, 9 points
Class B Boys—Jackie Goodman, Champion, 12 points
Class B Girls—Kathleen Cloues, Harmony, 12 points
Class C Boys—Roy Shaw, Harper, 9 points
Class C Girls—Alice Doyle, Champion, 9 points
Class D Boys—Ronald Goodman, Champion, 12 points
Class D Girls—Shirley Matlock, Long Coulee, 10 points
Class E Boys—Frank Thompson, Champion, 12 points
Class E Girls—Mary Moore, Champion, 11 points
Class F Boys—Walter Anderson, Champion, 15 points
Class F Girls—Irene Slier, Champion, 11 points

A new and novel feature of the Track Meet was the work of the High School "Pep Squad" who led the school in effective songs and cheers.

The staff of the Champion School wish to thank all those who helped to make the day a success. They are especially grateful for the continued support of the Women's Institute who supply the individual cups annually.

E. P. RANCH DISPOSE OF SHORTHORN HERD

Over one hundred head of purebred Shorthorn cattle were sold last week at the auction sale at the ranch. Over 500 cattlemen attended the sale and purchased cows, calves and bulls valued over \$11,000 dollars.

E. J. Whittle of Toronto, Gilbert Eiken and Harold H. Hastrand, North Dakota ranchers were heavy buyers. Elkin and Hestrand of Mayville, North Dakota, paid top price of \$110 for "Baptist Orator", senior herd sire, a prize winner at the Toronto Royal and Birmingham, England.

WEDDINGS

HOLLISTER—MCDougall

A quiet but interesting wedding was solemnized the home of Mr. and Mrs. J. D. McDougall, Champion, on Saturday afternoon, October 1st, at two-thirty o'clock, when their youngest daughter, Elsey Janet, became the bride of Mr. Calvin Hollister, of Vulcan, youngest son of Mr. E. M. Hollister of Calgary.

The ceremony was performed by Rev. Roscoe Hollister, Calvary, brother of the groom.

The bride, who was given in marriage by her father, was smartly attired in a grey tailored suit with white accessories. She carried a bouquet of red Talisman roses.

Miss Hazel McDougall, sister of the bride attended her. She wore a french blue tailored suit and carried a bouquet of pink and white carnations.

Mr. S. P. Cowgill of Champion attended the groom. Only immediate friends and relatives of the bride and groom were present.

Mr. and Mrs. Hollister left on a motor trip to the States.

FOR THANKSGIVING DINNER

Cape Cod Cranberries—23c lb
Alabama Sweet Potatoes, lb—10c
Mcintosh red Apples, box—\$1.65

Hubbard Squash the green kind—3c lb
Celery.
Lettuce.

"CAMPBELL'S"

LOCALS

George Bailey reports the loss of a number of sheep by coyotes which are becoming numerous in the district. It is securing the assistance of Art Ulrich and his hounds in an effort to rid the district of as many of these marauders as possible.

The October meeting of the Champion Women's Institute will be held on Saturday, October 15th, at 3 p.m. Many women in our vicinity are noted for their lovely handwork and we hope that they will send samples of their exquisite specimens to compete for small money prizes. The classes will include quilts, rugs, knitted sweaters, fine crocheted embroidery, and individual collections of all kinds of handicraft. All articles must be completed within the past year.

First prize offered in each class will be \$1.00, second prize 50 cents.

Mr. Frank Little or Mrs. G. Voisey will be pleased to receive all entries.

A delicious tea will be served during the afternoon.

October ushered in a change of weather when, after the perfect harvest weather of the past month, rain commenced Sunday and has fallen intermittently since, until this morning when it appears to have cleared up and the sun is shining. Precipitation registered 18 inches.

The moisture is welcomed by the farmers, following an exceptionally dry summer and fall, and housewives fortunate in having dusters are delighted to have them filled. Roads are in poor condition, the highway having the odd bad spot and sideroads almost impassable.

Harvest and threshing were practically completed, only the odd job being left to finish up. With the fine fall days and frost at night, the late crops ripened without damage and garden produce was matured.

The coal miners are back on the job, ready for their busy season.

According to figures submitted by the Dominion Bureau of Statistics to the special Senate Committee on Railways, the Government railways required assistance from the taxpayer to an average amount of \$75,000,000 per year in the ten years ending with December 31, 1936.

The rate of loss thus was \$150 per minute or about \$25 in ten seconds required to read this paragraph.

\$25 EVERY TEN SECONDS

Ladies' Aid at her home last Thursday afternoon, when a very interesting meeting was held. Arrangements were made for the holding of a series of teas, with two members in charge of each tea held. Mrs. Dawson and Mrs. Voisey consented to be hostesses for the first of these teas. Delicious refreshments were served by Mrs. Guy Dow and Mrs. Knudsen, assisted by the hostess.

CHAPTER V.—Continued

Mrs. Joyce laid aside her green cigarette holder and with that queer, coldly acquiescent mood which seemed a part of her, joined the rest of the group on the tiny veranda. The men had had their great express of Sapphire lake, living now like an irregular plate of silver between rugged mounds of black velvet.

"It's quiet, ever there, to the right," Hammond said. "Land on that and you'll be safe."

"Safe?" broke in Kay, with a little laugh. "From whom?"

"The Mounties," he said. "It's a boozing trip, isn't it?"

Kay faced the aviator. "Timmy! You haven't gone in for bootlegging already?"

The man was jesting, but Timmy was true.

"It isn't against the law to bring liquor from American territory to American territory. I'm not sneakin' anything into Canada."

"Who's this fellow who hired you?"

Hammond turned his head hard at him; he was sure it was the man who had frightened Jeannie Towers. Timmy rubbed his round face.

"Damned if I know. He said his name was Lew Shade. I know he works for Around the World Annie."

Kay laughed, somewhat harshly. "So that's what becomes of our daring young men who leave home to make their fortune in the new, unfettered North, and immediately becomes a bootlegger."

It was badly timed. Timmy Moon's nerves were raw, from a long session at the stick.

"Well, at least I'm honest about it. I'm not a damned pretender."

"Why, Timmy?" asked Kay, with an air of amazement. Who's pretender?"

"We've all been pretenders," said Timmy Moon. Jack caught the scent of liquor on his breath; and evidently Lew Shade, whenever he was, had been a drinker. Timmy asked him if he were up here and let's be honest as to why we're here."

"Timmy!" in the reflected light of the doorway, Hammond saw that the girl's face had gone white; there was fear in her eyes. The aviator did not notice.

"Don't Timmy me!" he exclaimed. "We're all broke and we might as well say we're broke and be done with it."

"Perhaps they'll get better to bed," said Mrs. Joyce icily.

"I think that's a good idea," Hammond took him by the arm. "Time for us to go to Timmy's."

"Oh, right." The round little pilot was grinning again. "I didn't mean to start any fireworks."

Hammond pulled him off the veranda and with an effort at a joking good-bye to the two women, led him down the trail.

"Sorry I can't put you up in my cabin," he apologized, when they were well along toward town. "But we've only got two beds."

"Oh, I couldn't go, anyway. I've got to get out too early." Timmy rubbed his hands over his face. "Wow, how a couple of shots can hit a fellow when he's tired."

You rather spoke out of turn up there at the house," the minor suggested.

Timmy raised his head, pulling hard for air.

"Yeah, I guess I did," he confessed

Street, Ottawa, Canada.

It was just like seeing a ghost. Did you hear me? I almost shrieked. The poor fellow must have thought I'd gone crazy. I did feel like an idiot."

Hammond agreed that it was indeed a silly feeling. Soon he went onward, again to take the trail up to the cottage. But he carried with him an uneasy presentiment that Jim Towers had not told the truth.

Kay was waiting for him, as well groomed as if she had come from a beauty parlor. Hammond watched the young playgirl with interest as he walked with her; they went down the trail. Then at last, on the banks of Leon creek, the man pointed out the claim which he had saved for her, a series of gravelly ledges on the stream, where sulphur stones and earth took of the workings held by McKenzie Joe and himself.

"I got them as near mine as I could," he said. "And this is a claim?"

"Why, it's just the same," Kay said.

"Isn't that a shame?" Hammond asked.

"Look," Hammond advised. All along the trail, the water of the high water men labored at the shoveling of earth into long, wooden sluice boxes which, picking up the water from a funnel running from a stream, the man, carried it down on a sled-like.

"You just wash it through and it becomes gold?" Kay said curiously.

"Isn't that a shame?"

A shout answered her, from upstream where the raw-boned Olson and two partners were working. Instantly labor stopped elsewhere. Joe and the others who worked the higher portions of earth, where the stream temporarily began to cut banks. Then men began to converge upon the sluice box.

"Let's go up," Hammond exclaimed.

"'Ours' found something in the clean-up?"

"The clean-up?" Kay asked, hurrying beside him. Mrs. Joyce followed, looking worriedly at the man, glancing acridly about her, a woman who seldom smiled, who seldom gave interest, yet who seemed to be weighing everything within her range before turning to explain.

"Yes, the clean-up. You see, these worn-out wooden chutes are called sluice boxes. They're got cleats across the bottom, called riffles. The dirt is shoveled in at the top, washed by the strong hot water. The dirt is washed off, leaving gravel on top. Anything heavier settles behind those riffles."

"Oh, I see. Then you stop shooting the water?"

"Not that easily. It takes a long time for those riffles to fill up. Then everything they've caught is scraped out. After that the miners pan it out."

"Tes—therees one." He pointed to a discarded gold pan on the creek's bank, flat bottomed and with sharply sloping sides. "They put the sluices in there and drift water into it, letting the strong hot water flow over the pan. Anything heavier settles behind those riffles."

"Oh, I see. Then you stop shooting the water?"

"Not that easily. It takes a long time for those riffles to fill up. Then everything they've caught is scraped out. After that the miners pan it out."

"Oh, I see. Then you stop shooting the water?"

"Not that easily. It takes a long time for those riffles to fill up. Then everything they've caught is scraped out. After that the miners pan it out."

"Tes—therees one." He pointed to a discarded gold pan on the creek's bank, flat bottomed and with sharply sloping sides. "They put the sluices in there and drift water into it, letting the strong hot water flow over the pan. Anything heavier settles behind those riffles."

"Oh, I see. Then you stop shooting the water?"

"Not that easily. It takes a long time for those riffles to fill up. Then everything they've caught is scraped out. After that the miners pan it out."

GOOD ROADS AND MORE BUSINESS

In this day and age when the motor car means so much to the travelling public, good roads mean great deal in putting traffic along the routes that are enjoying the better class of roads.

With the new road completed from Glacier National Park into Waterton Lakes Park, an increase of 10% has been record ed compared with last year. What a nice increase in cash business, due almost entirely to a super highway.

It is human nature to ferret out the best roads and to follow the path that offers the pleasure seeking tourist a trip that is as nearly perfect as possible. So, we find the big increase in business is found along the path of the better highways. Our governments must continue to build highways that are on a par with any, so that the ever increasing tourist trade can be offered something that will mean a steady increase in this splendid cash business.

LIBERALS STAY OUT

HON DR. MANION, the new Conservative leader, has decided to seek a seat in the Commons at the by-election in London. He will not be opposed by the Liberals, on the suggestion of Mr. Mackenzie King, but the C. C. F. will nominate a candidate and a contest is thus assured.

In advising his followers in the Ontario constituency not to oppose the election of Dr. Manion, Mr. King has observed the best tradition. The seat was formerly held by the Conservatives and if the Liberals should enter a three-cornered contest, it is quite possible that Dr. Manion might be defeated. It was therefore a gracious gesture on the part of the prime minister that he should take the attitude he has.

With only a C. C. F. candidate to oppose him, and with the Liberals and Conservatives lining up together, Dr. Manion's victory seems assured.

CARMANGAY

Mr. and Mrs. F. J. Rowley have moved into their residence which has just been completed.

Mrs. Nora Clark and daughter Vern, have gone to Calgary to reside.

Ed. Griffin and D. H. Russell attended the sale at the E. P. Ranch last Saturday.

Harvest Festival will be held in the Anglican Church on Sun day, October 16th, at 3 p.m.

Mrs. Fred Glendening is visiting her son and daughter in Vernon, B. C.

Visiting in Spokane, Metis Stafford will be the guest of his mother for a few weeks.

The regular meeting of the Women's Hospital Auxiliary will be held on Saturday evening at 8 p.m., in the town office. Bruce Thompson of Red Deer was a recent visitor in the district looking after farming interests.

This week's Picture Show — "Tundra," an epic of the top of the world. Don't miss this exceptionally fine show. Friday, Oct. 7th, at 8 p.m.

Dr. H. C. Dimock, who has been in practice in this district for the past eight years, is now at Lethbridge where he is associated with Dr. Bigelow.

A meeting of the Hospital Board was held on Saturday to discuss the purchase of new appliances. Those formerly in use were the property of Dr. H. C. Dimock, who has removed them to Lethbridge for his work there.

Rally Day was observed in the United Church on Sunday morning with the children taking part in the service. Rev. R. Taylor based his address on the Bible from the early days to the present time. Four girls, Eileen Dayman, Dorothy Cook, Emily Nugent and Mary Wilson, each gave a short account of the Bible. Gladys Leonard sang a solo and a violin selection was played by Mr. L. Robertson.

THE WORLD OF WHEAT

By H. G. L. Strange

Some time ago our Research Department compiled and published a chart showing 538 years of wheat prices.

The chart revealed a number of severe rises and falls in price throughout the years. We found that these great fluctuations always coincided exactly with great wars. We therefore set about studying all the wars that had occurred for the same period, i.e. the last 538 years, and we found some amazing things:

That the world during 538 years has only been at complete peace for 51 years. That France has been at war during the period, 100 years; Russia 261 years; Austria 258 years; Great Britain 123 years; Spain 213 years; Portugal 192 years; Italy 87 years; Holland 101 years; Portugal 40 years; and the United States 27 years. The most peaceful country having been China.

Most of the wars were fought we found, to obtain possession of lands that had produced wheat, foodstuffs, or other raw materials. Then, later, other countries would arise and attempt to take those lands for themselves from those who had previously conquered them; and so it seems to have gone on and on through the ages.

One invariable result of war has ever been, first very high, and then very low wheat prices.

Following factors have tended to raise price: Apparent European political crisis — rain

Robin Hood FLOUR**LABOR M P. DOUBTS PREMIER'S CLAIMS**

Manchester, England. Harold Nicolson, National Labor member of parliament, criticized Prime Minister Chamberlain at a Manchester luncheon Saturday for what he called the "surrender" at Munich and the "betrayal" of Czechoslovakia.

"We have betrayed a valiant little country and a great democratic ideal," he said.

"There are many people who feel in so doing that we achieved peace for a generation. They are wholly mistaken. We have achieved peace for a generation. We have achieved it only for six months."

The National Labor member declared the Prime Minister "was offered one of the greatest opportunities that ever fell to the lot of any British statesman."

He missed that opportunity, Mr. Nicolson said. "Had he taken a firm line at Munich he would have established perhaps for ever the superiority of the Democratic faith over Fascist communism."

Declaring naval mobilization threatened to break the Rome-Berlin axis, Mr. Nicolson said "it was at this moment, had the Prime Minister realized it, that he would have held all the cards in our hands. Had the Prime Minister exploited his advantage he would have obtained peace with honor. He did not, however, understand the psychology of Germany and Italy, and surrendered to them at the very moment when surrender was least necessary."

need in northern Argentina — European millers desire best spring wheat to strengthen mixtures — India reluctant to sell wheat — Poland distilling rye — Norway buys Canadian rye — Belgium buys substantial quantities U. S. A. wheat — France buys North African Durums.

Following factors have tended to lower price: Possibilities of peaceful European settlement — Liverpool wheat stocks double a year ago — Swedish wheat crop larger than 1937. Abundant supplies of bread grain in Germany — War risk insurance on cargoes to Germany suspended. All other rates at least doubled — Ukraine and southern Russia receive beneficial rains.

BIG CROPS REAPED ON CRESTON FARMS

Creston's 1938 wheat harvest was completed last week.

Due to levees collapsing in two big areas, this year's crop is confined to about 1500 acres in what is known as the Bruderhoofl area on North Island, where final combine returns indicate an average yield of over twenty bushels per acre.

On the Poole tract, great success was had with Thatcher rust resistant wheat, which in more favored spots went as high as 50 bushels to the acre and graded No. 1 northern.

The entire crop of this variety has been sold for seed at one dollar per bushel, according to reliable reports, and not enough of it is available to supply the demand.

Combining has also been completed on the one-dyked tract at Creston that survived the high water this year. It has 1400 acres in crop and is averaging 25 bushels to the acre, much of which is grading No. 1 northern. Some reward spring wheat went sixty-seven pounds to the bushel and was top grade. This is part of 2200 acre tract on Nick's Island, operated by Poole Construction Co. Ltd. and Bruderhoofl and Adams.

On the 15,000 acres flooded in June, cultivation is in full swing and much winter wheat will be planted.

O. L. TAYLOR IN SERIOUS ACCIDENT AT CROSSING

A serious accident occurred Wednesday evening, at 7:40, when Mr. O. L. Taylor of Carmangay was struck by the northbound passenger at the railway crossing in Carmangay and badly injured. Mr. Taylor was apparently driving down town for a mail thinking the train was in as it was past train time. It was raining at the time and visibility was at a minimum. The impact threw Mr. Taylor out on one side of the track while the car was thrown to the other side. Up to the time of going to press, Mr. Taylor has not regained consciousness and grave fears are held for his recovery.

Mr. Taylor is visiting at the coast and has been notified of the accident and his son in law and daughter, Mr. and Mrs. Donald Bond of Gleichen, are at his bedside.

SUBSCRIBE TO THE CHRONICLE**YOUR COUNTRY NEEDS YOU**

Perhaps you shrink from these words, and who can blame you? They recall all too vividly the patriotic fervor of a nation in arms and the epilogue of horror and heartbreak. But, although the call is more urgent for your help in a crisis, your country needs you just as surely in the cause of peace and progress. If you and your neighbors are prosperous, your country prospers. If you and your neighbors are well informed and progressive, the whole country reaps the benefit.

Greater progress, higher standards of living, better ways of life, are possible to an informed people. It is your privilege to be informed fully on all matters of importance through a free press. Make full use of this freedom, denied in so many other countries. Be informed. Keep a voice in your own government.
